

## RII20115 Certificate II in Resources and Infrastructure Work Preparation

### What is VETiS?

Vocational Education and Training in Schools (VETiS) is a program funded by the Queensland Government that enables students to gain nationally recognised qualifications while at school. Students learn skills and knowledge required for specific industries.

VETiS can be undertaken in years 10, 11 and 12, and can count towards the Queensland Certificate of Education.

VET can also be undertaken while a young person is still enrolled at school through a school-based apprenticeship or traineeship (SAT).

### How is VETiS funded in Queensland?

In Queensland, VETiS is funded from two main sources:

1. Schools—many schools are also registered training organisations (school RTOs) and deliver VETiS training to students. The majority of VETiS training in Queensland is delivered and resourced by schools RTOs.
2. Training (VET investment budget)—provides funding to any RTO that is approved by the Department of Education and Training (DET) as a pre-qualified supplier (PQS).

**SDS Training is a PQS of VETiS - RTO 32505**

### VETiS funding by the VET investment budget

VETiS qualifications funded by the VET investment budget are listed on the [Queensland Training Subsidies List](#). These qualifications are delivered by RTOs who have been approved by DET as pre-qualified suppliers (PQS) under the Certificate 3 Guarantee. Schools, in consultation with students and their parents, are able to choose any PQS approved to deliver the eligible qualification.

VETiS qualifications on the Queensland Training Subsidies List are at the certificate I and II level. Students who wish to access the VET investment budget to undertake a certificate III qualification should do so through a school-based apprenticeship or traineeship (SAT)—funding for a SAT is available under the User Choice Program

For more information regarding VETiS please refer to the following links

### Course Overview

#### RII20115 - Certificate II in Resources and Infrastructure Work Preparation

The Certificate II in Resources and Infrastructure Work Preparation is a pathway qualification and will prepare an individual in successfully undertaking a career in the Resource Industry; Construction, Civil Construction, Drilling and Mining sectors.

SDS has designed this program to provide hands-on training with industry experienced trainers; skilling opportunities to transition from school into a career of their choosing (construction, civil, mining, drilling & heavy industry sectors).

Course content includes (but not limited to):-

- Safety Policies & Procedures
- Communication
- Hazard Identification & Risk Control
- Planning & Teamwork
- Environment & Heritage Awareness
- Concreting
- Safely Working at Heights

#### \*VETiS Program Options

- AHC21216 Certificate II Rural Operations
- HLT23215 Certificate II Health Support Services
- RII20115 Certificate II Resources & Infrastructure Preparation
- TLI21815 Certificate II in Logistics
- TLI21315 Certificate II in Rail Infrastructure

**Head Office**  
Strategic Deployment Services  
185 Nerada Road,  
Maryborough  
QLD 4650

## Proposed Program

- Individual Schools or partnership of schools (depending on student numbers)
- SDS provides trainers and resources in order to fulfill course requirements
- Based on the 'concreting elective', school(s) would contribute raw materials (ie. concrete, sand / gravel, mesh, form-work & water) towards a project that would occur at their school

Schedule days of training throughout the year:

- One week per term; or
- Block training (3-4 week program); or
- Schedule 'group' (consecutive) days per term (minimum 20 days per year)
- PPE clothing/equipment cost of \$80.00 (if required)

The following table provides the recommended units of competency to be completed within this qualification.

Nine (9) units comprising the following:

- 3 core units; and
- 6 elective units

### Core units of competency

Unit code	Unit title
RIIWH201D	Work Safely and Follow WHS Policies and Procedures
RIIRIS201D	Conduct Local Risk Control
RIIENV201D	Identify and Assess Environmental and Heritage Concerns

### Electives

Unit code	Unit title
RIICCM201D	Carry out Measurements & Calculations
RIISAM203D	Use Hand & Power Tools
RIISAM201D	Handle Resources & Infrastructure Materials & Safely Dispose of Non-Toxic Materials
RIIBEF201D	Plan & Organise Work
RIIWH204D	Work Safely at Heights
*RIICCM209D	Carry out Concrete Work (Imported Elective)

*N.B – Students that do not already have a white card would receive this unit additionally (CPCCWHS1001 – Work Safely in the Construction Industry)*

## SDS - Snap-Shot

Strategic Deployment Services (SDS) has evolved into a multi-disciplinary integrated personnel company providing training, occupational / industrial health, recruitment and logistic services to a wide range of civil construction, drilling, heavy industry, mining and transport sector clients.

As a Registered Training Organisation (RTO 32505) we are committed to delivering nationally accredited, industry-based training and assessment programs. We partner with organisations and individuals to identify training needs and develop skills.
